AL 017

Compact Automatic Die Cutting System

Automatic Die Cutting solution for a robust and seamless cutting process.

Reliable and Modular cutting system with significant cost savings through **waste reduction, floor space usage** and **consistent quality**.

Quick cutting pattern change, easy pattern creation to speed up the new models implementation.

Industry 4.0 HMI for advanced production control and audit, remote service.

Modular with **plug & play** design to simplify process improvements.

AL 017 is **engineered** and **manufactured in Italy** with an industrial design, guaranteeing a **great value retention** and a **high production repetability**.

AL 017

AL 017 is a flexible cutting system that can be equipped with different options and capable to precisely cut several materials. The main benefits are:

HIGH PRODUCTIVITY PRECISION

MATERIAL SAVINGS SMALL FOOTPRINT 24:7 OPERATIONS

TECHNICAL DETAILS

CUTTING AREA DIMENSIONS

870 X 450 mm

ADDITIONAL MODULES

Automatic feeding
Automatic unloading
Laser pointers
Printer

CONTROL SYSTEM

Industrial PLC based
Windows based HMI with touchscreen
Industry 4.0
Remote Service connectivity
Remote dashboard
ERP Interface possibilities

MAIN APPLICATIONS

✓ LINGERIE AND LACE ✓ SURGICAL MESH ✓ AEROSPACE ✓ AUTOMOTIVE ✓ DEFENSE AND SECURITY
